Certified Public Accountant, State of New York  
(See Resume Exhibit "11")

Mr. Shaykh Hassan Ali Cisse, Director  
Religious Leader, Dakar Senegal  
(See Resume Exhibit "12")

## HISTORY OF THE COLLEGE

Saint Christopher's College of Medicine educational program was first offered in Cambridge, England in 1999 by Dr. Paul Leone.

Dr. Paul Leone secured financial backing for the educational program in the form of personal investment from Mr. Shaykh Hassan Ali Cissé, a religious leader in Dakar Senegal, and from his accountant, Mr. Firoz Ahmed Shaikh in New York.

Saint Christopher's College of Medicine was incorporated in Florida, USA in May 1999 by Dr. Paul Leone and Mr. Firoz Ahmed Shaikh. In 1999, the admissions and registrar functions were staffed by a very capable administrator, Ms Tricia Panella.

Under the leadership of the managing director, Dr. Paul Leone, and the financial director, Mr. Firoz Ahmed Shaikh, and in part due to the significant political influence of Mr. Shaykh Hassan Ali Cisse in Senegal, Saint Christopher's College of Medicine was authorized to grant the degree Doctor of Medicine in June 2000 by the Ministry of Health and the Ministry of Education in the Republic of Senegal.

Initially, the educational program consisted of only a pre-clinical curriculum taught in Cambridge utilizing part-time faculty from the University of Cambridge. The pre-clinical program in Cambridge was operated under the direction of Dr. Jeffries Mvenge of Zimbabwe, a former instructor at Kigezi International School of Medicine in Cambridge.

In 2001, Mr. Alan Bain joined Saint Christopher's College of Medicine from Kigezi International School of Medicine and became the director of operations of the pre-clinical program in Cambridge.

In 2001, Dr. Mark Best replaced Dr. Jeffries and was appointed the Dean of the Cambridge Program.

During 2001 and 2002, Dr. Paul Leone traveled between Cambridge and the United States to develop clinical training opportunities in the United States. During 2001, in particular, the student body consisted primarily of transfer students from other overseas medical schools who were in need of clerkships that could not be provided by these programs.

In 2001, Dr. Tah-Hsiung Hsu was appointed as Acting Clinical Dean because of his involvement with the clinical training of students of Saint Christopher's College of Medicine students and his academic association with Johns Hopkins University Hospital affiliates.

In 2001 and 2002, Dr. Paul Leone and Dr. Tah-Hsiung Hsu increased the number of hospitals affiliated with Saint Christopher's College of Medicine to over a half dozen. At present, however, the only hospital in the State of New York affiliated with Saint Christopher's College of Medicine is Jamaica Hospital in Long Island.

In 2001, student financial aid was established with The Educational Resource Institute (TERI). This provided at least some level of financial support for credit-worthy students.

In 2002, the pre-clinical program moved from Cambridge to Luton, approximately 30 miles north of London. The contractual agreement with the University of Luton, a former polytechnical university with no medical training program of its own, greatly enhanced the infrastructure available to Saint Christopher's College of Medicine. The affiliation with the University of Luton provided first-class classrooms, laboratories, dormitories and student facilities.

The primary benefit, however, that was bestowed upon Saint Christopher's College of Medicine by the move from Cambridge to University of Luton was the proximity to the London Medical Schools. The closer proximity to Kings and Guy's, in particular, meant that medical specialists in these leading medical schools could more easily travel from London to teach the pre-clinical students Saint Christopher's College of Medicine.

In 2002, the Office of Admissions and the Office of the Registrar moved from Naples, Florida to a temporary office in Melville, New York. Soon thereafter, a more suitable administrative office was found in Scotch Plains, New Jersey, near the office of Firoz Ahmed Shaikh, so that he could manage the finances and the day-to-day operations of the college.

In 2002, a key program administrator, Ms Angela Schroeder, moved to Luton from Naples, Florida, where she had served as Assistant Registrar. In Luton, Mr. Alan Bain managed the financial and contractual affairs of the pre-clinical program and Miss Angela Schroeder managed all other aspects and day-to-day operations of the growing pre-clinical program.

Of course, in order for Saint Christopher's College of Medicine to maintain degree-granting authority from Ministry of Health and Ministry of Education in Senegal, it is necessary to maintain a significant presence in that country and have an impact on health care education. Accordingly, key academic appointments were made in 2001 and 2002 in Dakar, Senegal, with the aim of establishing programs in medical education in Senegal.

In 2001, Professor Ibrahim Diop Mar was appointed Dean of the Dakar Campus. Shortly thereafter, Dr. El Hadji Ibrahima Diop, his son, was appointed Associate Dean of the Dakar Campus.

Under the academic leadership of Professor Ibrahim Diop Mar and Dr. El Hadji Ibrahima Diop, and Dr. Paul Leone, plans were fashioned for a six-year medical training program in French that could be developed in association with a hospital in Dakar, Senegal. Of course, the difficulties of developing such a lengthy clinical training program in Dakar, in French, require the cooperation of many governmental officials as well as the commitment on the part of Saint Christopher's College of Medicine to fund the program. Recently, the Ministry of Health in the Republic of Senegal selected the hospital that shall serve as the clinical training facility.

At present, the training of Saint Christopher's College of Medicine students does not include either pre-clinical or clinical training in Senegal. Simply stated, it is not practical to attempt either pre-clinical or clinical instruction in French to our students.

The Directors of Saint Christopher's College of Medicine remain committed to the development of medical educational training programs in Senegal. However, for the foreseeable future, the developments in Senegal remain quite separate from the on-going pre-clinical program education in Luton, England and the established clinical clerkships in the United States.

In 2002, with the assistance of Mr. Neil Warnock, formerly a financial-aid administrator for Kigezi International School of Medicine, Saint Christopher's College of Medicine established the Med-Achiever Loan program through Key Bank.

In 2003, four administrators have been added to the staff in the New Jersey office. Two administrators, Mr. William Cundiff, JD, MBA, recently appointed as Director of Operations and Mr. Robert D. Fave, recently appointed as Clinical Director, came to Saint Christopher's College of Medicine with foreign medical education experience.

In September 2003, the number of students enrolled has grown to over 100 students per semester.

In 2003, to assure more continuity in the pre-clinical program, several full-time faculty appointments have been made in Luton. This has created a core of well-qualified, full-time faculty in biochemistry, physiology and medical microbiology who can also serve the important function as academic advisors. The full-time faculty, together with the visiting part-time medical specialists, brings a balance to the classroom and a commitment to deliver the highest possible quality in medical education.

The growth of Saint Christopher's College of Medicine is due to the efforts of many people who share a common goal, namely, to make a quality medical education more readily available for deserving students. However, it is the vision, drive and commitment of, Dr. Paul Leone that has made this achievement possible.

### ENROLLMENT DATA - Current Year 2003-2004

Enrollment	1 <sup>st</sup> Year Pre-Clinical	2 <sup>nd</sup> Year Pre-Clinical	Clinical
579 students	219 students	113 students	247 students

### ENROLLMENT DATA - Demographics

Enrollment	Senegalese	U.S. Nationals	Other
579 students	N/A	464 students	115 students

### ENROLLMENT DATA – Prior Five Years

Enrollment	1999	2000	2001	2002	2003
Total students	N/A	24	104	234	579

[Note: Saint Christopher's College of Medicine operates year-round and students are admitted three times per year.]

### ELIGIBILITY FOR LICENSURE

The graduates of Saint Christopher's College of Medicine are eligible for licensure in the Republic of Senegal, subject to immigration laws and the qualification examinations.

The graduates of Saint Christopher's College of Medicine are eligible for certification by the Educational Commission of Foreign Medical Graduates (ECFMG) and therefore eligible for licensure in 37 states within the United States of America.

In addition, the graduates of Saint Christopher's College of Medicine are eligible for "Limited Registration" in the United Kingdom, which allows 5 years of post-graduate training in hospital.

### USMLE PASS RATE

The Saint Christopher's College of Medicine, Office of the Clinical Coordinator in New Jersey, reports the following examination pass rates on the USMLE Step I, Step II and Clinical Examination.

Pass Rate	Step I	Step II	Clinical Examination
1999	N/A	N/A	N/A
2000	N/A	N/A	N/A
2001	9 of 10 (90%)	7 of 9 (78%)	N/A
2002	18 of 21 (86%)	17 of 21 (81%)	12 of 15 (80%)
2003	63 of 71 (89%)	47 of 61 (77%)	42 of 57 (74%)

### OTHER PROGRAMS

Neither Saint Christopher's College of Medicine nor Saint Christopher's Admissions Corporation or any other related entity presently operates any other educational program. However, Saint Christopher's College of Medicine is developing plans for a 6-year medical training program leading to the M.D degree, in French, in Dakar, Senegal.

In addition, Saint Christopher's College of Medicine is developing a 2-year Masters in Public Health (MPH) program in California in association with the World Health Institute of Public Health. In due course, application shall be made for degree-granting authority to the Bureau of Post-Secondary Private Education in the State of California.

**STUDENT EXPENSES**

<u>Semester Expenses</u>	<u>Senegalese</u>	<u>U.S. Nationals</u>	<u>Other</u>
Admissions Applications	\$100	\$100	\$100
16 week Pre-Clinical Tuition	\$6,000	\$6,000	\$6,000
12 week Clinical Rotation	\$6,500	\$6,500	\$6,500
Living Costs Pre-Clinical (Per 16-week semester)	\$4,000	\$4,000	\$4,000
Living Costs Pre-Clinical (Per 12-week rotation)	\$3,000	\$3,000	\$3,000
Transportation (Per 16-week semester)	\$1,000	\$1,000	\$1,000
Transportation (Per 12-week rotation)	\$1,000	\$1,000	\$1,000
Graduation Fee	\$1,000	\$1,000	\$1,000

**DURATION OF EDUCATIONAL PROGRAM – M.D. degree Program**

<u>Year</u>	<u>Number of Weeks</u>	<u>Number of Terms)</u>
Weeks in 1 <sup>st</sup> Year	32 weeks	(2 16-week pre-clinical semesters)
Weeks in 2 <sup>nd</sup> Year	48 weeks	(3 16-week pre-clinical semesters)
Weeks in 3 <sup>rd</sup> Year	36 weeks	(3 12-week clinical rotations)
Weeks in 4 <sup>th</sup> Year	36 weeks	(3 12-week clinical rotations)
