Subject: Staff Analysis St. Maarten

Dear Ms. Griffiths,
Thank you for giving the ACCM an opportunity to see the draft analysis report. As far as the ACCM is concerned the report is factual and fair. I attach a note on points raised. The details of the Commission membership will be sent to you separately.
Sincerely, Conor Ward, Chairman

2/17/2004

Accreditation Commission on Colleges of Medicine
PO Box 246 Teddington, Middlesex TW11 UK
13th February, 2004

Carol Griffiths, Chief Accreditation Agency Evaluation, US Dept of Education
National Committee on Foreign Medical Education and Accreditation
US Department of Education

Dear Ms Griffiths,

Thank you for forwarding a copy of the Staff Analysis of the Accreditation Report furnished up to Lieutenant Governor of the island of St Maarten and referring to the American University of the Caribbean established there. The ACCM has no criticism to make of the Analysis.

I write to clarify the decision of the Commission in relation to Element 4. In its conclusion (P 7) the ACCM has commented that, in relation to Element 4 the school is in compliance with the Elements.

You have drawn attention to the fact that under Element 4 the Accreditation Report makes no specific mention of certain matters under three headings. The headings are (a) Duration of the course. (iv) Ethical, behavioural and socio-economic subjects pertinent to Medicine and (v) Communication skills.

With regard to the duration of the course the Accreditation Report refers in the opening paragraph to the fact the AUC catalogue sets out its listing of the required courses and a description of each. In giving its approval the ACCM had noted that the Annual Survey set out the duration of the course as follows:

First Year 48 weeks; Second Year 32 weeks; Third Year 42 weeks; Fourth Year 30 weeks; Total: 152 weeks. On this basis compliance was confirmed.

With regard to the subject material listed under (iv) the Accreditation Report includes Exhibit No. 11 . This exhibit in Appendix B gives a list of additional subjects to be covered in the Medical Ethics course. The Annual Survey furnished to the Commission set out that there was a full course in medical ethics and a detailed review set out that there was full coverage of AIDS, domestic violence, alcohol and substance abuse, smoking, nutrition, epidemiology, and long-term care etc. The individual course modules in which cross coverage of the subjects specifically identified to the satisfaction of the ACCM. In stating that compliance with Element 4 had been confirmed it was the intention to indicate that the full details of the courses had been reviewed and found to be satisfactory.

In the Accreditation Decision the AUC is required to submit an Annual Survey and the school is to include reference to (2) Changes in the curriculum. The school cannot in the

future omit or attenuate the coverage of the subjects presently listed in the Elements and the ACCM will have to be informed if there are any plans to change the present arrangements for crosscoverage of the required subjects.

In relation to communication skills (v) the ACCM was impressed by materials listed in Exhibit 11(b) which were considered to give a satisfactory introduction to the basis for the development of communication skills. In addition the ACCM noted that the Clinical Clerkship Evaluation Report submitted on each student by the Programme Director required a graded response on an assessment of interpersonal relations and in addition a graded response, without reference to scholastic ability, to the degree of human qualities and maturity shown by the student and expected of a future physician. Clinical site visits confirmed that students found wanting in these areas were counselled.

It is the intention of the ACCM to visit the St Maarten campus on an annual basis and to ensure that the specific requirements with regard to the Elements continue to be complied with. In addition the AUC will continue to be required to submit an Annual Survey setting out in detail how all the courses in the curriculum continue to be provided.

Yours sincerely,

Prof Conor Ward, Chairman

Cc. HE Lieutenant Governor Franklyn Richards, St. Maarten

The Hon. Sarah Wescott Williams, Commissioner for Education, St. Maarten

Dear Mr. Barth:

Please be advised that the Executive Council of St. Maarten agrees with the accreditation process as conducted by the ACCM (prof. O Conor Ward), with regard to the American University of the Caribbean.

We concur with the findings as presented in the report of this Commission, dated December 1st 2003 and have no objections to the reaction of the ACCM to your draft review as lodged for the meeting of the NCFMEA on March 8th and 9th 2004.

We have informed the ACCM accordingly and forward you enclosed a copy of said communication.

The Executive Council of the Island Territory, St. Maarten.

The Secretary.

The Governor.

Onderwerp: Accreditation Report

Philipsburg, MAR 16 2004

Bijlagen:

Dear Professor Ward;

From your letter dated Dec. 11th 2003 and the accompanying accreditation report, the Executive Council of St. Maarten, understands that the Accreditation Commission on Colleges of Medicine has decided to extend the accreditation of the American University of the Caribbean (AUC) for a further six years, beginning January 1st 2004.

Considering the accreditation process, the subsequent report and the reaction to the draft review from the U. S. Department of Education meant for the NCFMEA meeting on March 8 and 9 2004, our Government informs you that we readily underscore the content of the report.

We are grateful for your thorough reporting as well as for all your assistance in this matter and look forward to a continued working relationship.

Sincerely yours,

The Executive Council of the Island Territory, St. Maarten.

The Secretary,

The Governor
