

Annual Medical School Dues

In recognition of the disparity in the capacity of medical schools to afford membership and the wish to adopt as equitable formula as possible, IAOMC has adopted the following categories:

- I. Ability to pay as determined by the World Bank's category of a country's latest Gross National Income (GNI) per capita.
(See: <http://www.worldbank.org/data/countryclass/countryclass.html>);

Level 4 = High Income Countries	(earnings of \$11,116 or more)
Level 3 = Upper-Middle Income Countries	(earnings of \$3,596 to \$11,115)
Level 2 = Lower-Middle Income Countries	(earnings of \$906 to \$3,595)
Level 1 = Low Income Countries	(earnings of \$905 or less)
- II. By IAOMC's three membership categories and
- III. By Government or Private ownership.
- IV. By the number of matriculating students.
- V. By Private For Profit Medical Schools and Private Not For Profit Medical Schools.

World Bank Level	1. Accredited		2. Reviewed/Registered		3. Affiliated	
	Govt.	Private*	Govt.	Private*	Govt.	Private*
4	\$15,000.00	\$20,000.00	\$12,500.00	\$17,000.00	\$11,500.00	\$15,500.00
3	12,000.00	17,000.00	10,000.00	15,000.00	8,500.00	10,000.00
2	6,000.00	10,000.00	5,000.00	10,000.00	4,500.00	5,000.00
1	1,000.00	1,000.00	750.00	750.00	600.00	750.00

* Dues are reduced 25% for fewer than 500 matriculating students. And an additional 25% for Level 2 and Level 1 not for profit schools. "Not for profit" as defined by US 501c3.
